MEMORANDUM FOR: [REDACTED]

THRU : [REDACTED]

SUBJECT : Cartographic Support of TFP

1. Reference your #2198 dated 29 August 1958, para 1D and 1E. On re-reading this I see the ambiguity. [REDACTED] prepares for my use alone a single manuscript copy of the kind of index required. The pity is that, this valuable piece of work is not reproduced in quantity.

25X1X7g

The compilation process used by [REDACTED] consists of taking our file of Mosaics and outlining them sheet by sheet onto an NES base Map of the subject country. [REDACTED] envisage their continuing this aid to me, but to make a second copy for [REDACTED] use. This should save your compilers the sizeable amount of work of both procuring the mosaics and then doing what [REDACTED] has already done. I suspect that your capabilities for support of us are quite thin and getting thinner. I believe that by using the manuscript we supply the increased support we ask for will involve one or two additional man-days. I shall forward the index of Bulgaria in a week or so, and give you at the same time a definite date.

2. The news of your urban program is good to hear. I do hope that you all will make the additional effort of coordinating here. I am certain that the dividends of close liaison [REDACTED] will be bountiful for many months.

3. I spent a very enjoyable and educational three days last week on a field trip to [REDACTED] in company with the students in the current industrial observation course. I was [REDACTED] and was treated royally the whole way. I mean that literally, for we were shown about by people on the senior vice-president level and wine and dined in executive dining rooms. It was an experience I shall not soon forget.
